About us

Founded in Srebrenik, Yavuz d.o.o. is proud to be the first company in Bosnia and Herzegovina to produce uPVC profiles & PVC panels, setting a benchmark in quality, innovation, and industrial progress. Since our establishment, we have remained devoted to becoming a regional leader in the manufacture of high-performance PVC joinery, delivering reliable, energy-efficient solutions that exceed industry expectations.

Our success is rooted in a strong vision and a commitment to continuous advancement. We thrive by:

- ✓ Expanding our portfolio with cutting-edge products and system solutions
- ✓ Staying ahead of architectural and construction trends
- ✓ Ensuring product quality through certified testing by accredited laboratories
- ✓ Constantly investing in employee education and professional development
- ✓ Partnering exclusively with suppliers who uphold our standards

Driven by expertise, passion, and a strong sense of responsibility, we strive to offer products that meet the highest standards in design, durability, and sustainability.

Today, with a workforce of over 800 employees and a state-of-the-art production facility spanning 52,010 m², Yavuz d.o.o. stands as a symbol of technological excellence, trust, and progress—both in Bosnia and Herzegovina and across international markets.

As the company we are proud to deliver certified uPVC profiles, PVC panels and complete carpentry solutions that combine aesthetics, performance, and precision engineering.

Export map

Our products are proudly exported to over 25 countries worldwide, showcasing our commitment to global reach and quality. Explore our export map to see how we connect with customers around the globe.

Why to choose our PVC panels

Affordable

Utilising Vacuum Forming technology, each PVC-U door panel is manufactured to exacting standards and hand finished to suit your style and budget.

Highly Customisable

Providing a vast number of styles, glass designs and colours to choose from, we promise that no matter the age, style or aesthetic of your home, we can find the perfect PVC-U front door for you.

Durable

PVC-U is one of the most versatile options available. PVC-U is impervious to water, is colour stable and is resistant to everyday knocks and scratches.

Eco Friendly

Our panels are recyclable and in addition, manufacturing waste materials are disposed of responsibly wherever possible.

Low Maintenance

PVC-U doors require little to no maintenance, just an occasional wipe down with warm, soapy water and a lint-free cloth will keep your door looking great for years to come.

Thermally Efficient

Protected by Heat Reflective Technology, our PVC-U door panels have a heat reflective skin which, when combined with an extra high density core, provides excellent insulation.

PVC is a high-quality material because it is durable, weather-resistant, energy-efficient, and requires minimal maintenance while maintaining its shape and appearance over time. Combined with premium glue and styrodur insulation, our panels achieve superior stability, thermal efficiency, and long-lasting performance.

HPL

High pressure laminate
door panels.

HPL panels are decorative and protective laminate boards made by compressing multiple layers of kraft paper (impregnated with phenolic resin) and a decorative paper (impregnated with melamine resin) under high pressure and high temperature.

Key Features:

Durable surface: scratch-resistant, impact-resistant, and resistant to moisture and chemicals.

Decorative flexibility: wide range of colors, textures (wood, stone, metallic, abstract).

Hygienic: easy to clean and maintain.

Weather & UV resistance (especially exterior-grade HPL).

Eco-friendly options: often made with recyclable paper layers and compliant with EU norms.

In short: HPL door panels are decorative, durable, and protective laminated surfaces applied to door panels, often chosen as a premium alternative to painting or veneering.

Our INOX door panels combine durability, modern design, and easy maintenance, making them an ideal solution for both residential and commercial doors. Engineered with high-quality materials, they provide excellent insulation, weather resistance, and long-lasting performance.

Why to choose our INOX panels

Affordable

Utilising Vacuum Forming technology, each INOX door panel is manufactured to exacting standards and hand finished to suit your style and budget.

Highly Customisable

Providing a vast number of styles, glass designs and colours to choose from, we promise that no matter the age, style or aesthetic of your home, we can find the perfect INOX front door for you.

Durable

INOX is one of the most versatile options available. Our INOX panel is impervious to water, is colour stable and is resistant to everyday knocks and scratches.

Eco Friendly

Our panels are recyclable and in addition, manufacturing waste materials are disposed of responsibly wherever possible.

Low Maintenance

INOX doors require little to no maintenance, just an occasional wipe down with warm, soapy water and a lint-free cloth will keep your door looking great for years to come.

Thermally Efficient

Protected by Heat Reflective Technology, our INOX door panels have a heat reflective skin which, when combined with an extra high density core, provides excellent insulation.
